

FLAMEFAST AUTOMOTIVE

FB-FF0241D EEC-V FUEL INJECTION BOARD (DRY)

Fully operational Fuel Injection/Engine Management Trainer, manufactured using components from original engine build.

Based on a Ford Focus, complete with all actuators and sensors, with EEC-V engine management system.

Specification:

- Dry running operation using LEDs to indicate injection operation.
- Fitted with manufacturer's diagnostic socket (16 pin).
- Pin out facility on all electrical components using Ø2mm sockets enabling 'real-time' values to be taken without compromising the wiring harness.
- Rotating parts covered by mesh guards.
- Board mounted in a vertical frame with castors.
- Powder coated paint finish.
- Supply voltage, 12 volts DC.
- Supplied with a comprehensive training manual.
- Warranty 24 months from date of delivery.
- **CE** Certification.

Options:

(F10FF) Ten fault, fault insertion contained in a lockable box.

Dimensions: (W x L x H)

1000mm x 750mm x 1950mm

Weight:

70 Kg
