

FF 7950 MARINE INBOARD DIESEL ENGINE 6/8 V-CYLINDERS WITHOUT INVERTER (on stand with wheels) - electrical

FF 7950

FF 7950

Main technical specifications:

6 V-cylinders engine or 8 V-cylinders engine according to market availability.

Complete of accessories and closed cooling circuit.

The engine operates electrically at 220 volts and runs at a reduced speed to let the student easily understand and observe the operation of the various mechanical parts.

This cutaway model is carefully sectioned for training purposes, professionally painted with different colours

to better differentiate the various parts, cross-sections, lubricating circuits, fuel system, cooling system etc. Many parts have been chromium, plated and galvanized for a longer life.

Packing details are provided upon request according to the engine type (6 or 8 cylinders).
